

		Parul University Faculty of Engineering and Technology Parul Institute of Engineering and Technology Computer Science & Engineering Department	
Subject Name	Operating System	A. Y	2025-26
Subject Code	303105251	Semester	4
Course Outcomes			
After Learning the Course, the students shall be able to:			
SR. NO.	Cos		
1	Distinguish different styles of operating system design.		
2	Understand device and I/O management functions in operating systems as part of a uniform device abstraction.		
3	Have an understanding of disk organization and file system structure.		
4	Give the rationale for virtual memory abstractions in operating systems.		
5	Understand the main principles and techniques used to implement processes and threads as well as the different algorithms for process scheduling.		
6	Understand the main mechanisms used for inter-process communication.		
7	Understand the main problems related to concurrency and the different synchronization mechanisms available.
